DISCOVER THE GREEK OLIVE OIL

Greek diet, as a foundation of the Mediterranean diet and cuisine, is a centuries-old eating lifestyle, linked to our cultural identity and traditions.

Noted as one of the healthiest diets in the entire world it is based on sustainability, balance and well-being having as a top ingredient: the extra virgin olive oil.

Extra virgin olive oil, the juice of olives, fruits of Greece's sacred tree; the olive tree. Due to its phyto-nutrient richness, it offers numerous health benefits which extend to most of our body systems as it contributes to a balanced diet. Also used for cosmetic reasons, olive oil is considered one of the best natural remedies for skin care.

It has emollient, moisturizing and antiseptic properties and can be very effective against dry skin while

nourishing and strengthening it. Thanks to its unique climate, unspoiled flora and divergent landforms our homeland, the Greek island of Lesbos (Mytilene), has been producing, since the ancient times, goods of high gastronomic and nutritional value adding to wellbeing.

Lesbos (Mytilene or Mytilini) is the largest island in the North Aegean Sea and Greece's third largest island, five nautical miles from the Turkish coast, at the opening of Adramyttinos Gulf. Characterised as "the garden of the Aegean", Lesbos is renowned for its rich flora including olive trees, various orchards and aromatic herbs, its vibrant ecosystems, its climate and its divergent landforms.

No wonder why Lesbos has such a long history of olive oil production; archaeological finds have brought to light a Bronze Age olive press dated back to 2800 - 2000 BC!

WE PRODUCE WITH RESPECT WE TRADE FAIRLY

We are AEGEAN AGROFOOD, one of the largest exporters of bottled Greek Olive Oil, located on the island of Lesbos. Respecting deeply our heritage and environment, involved in olive oil production since 1929, we are committed to environmental sustainability, high quality products which best satisfy our customers' needs, always showing a true passion for excellence, integrity and reliability.

Olive oil enthusiasts ourselves, we pay great attention to the strict quality, safety and hygiene standards imposed by the international institutions. Our multi-awarded company has exclusive partnerships with producers to whom we are providing scientific advice while regularly carrying out quality controls.

We have recently relocated to new facilities investing on new infrastructure in order to support our continuous growth. Our new facilities are applying HACCP procedures whilst we possess ISO 22000:2018, FDA, KFPA and Organic certifications (DIO, USDA, AB). With strategic partnerships in Crete and Kalamata areas' family groves, we are certified for the production and bottling of LESVOS PGI, KALAMATA PDO and KOLYMVARI KRITIS PDO olive oil product series.

At each small, family olive grove of AEGEAN AGROFOOD splendor meets exclusivity, supremacy marries with farmers' dedication, tradition blends with cutting-edge technologies. Certified bottling procedures, modern infrastructure, well-skilled, passionate people, strict quality controls and product safety criteria and procedures; we reach perfection. We ensure uniqueness.

Exporting to more than 15 countries, AEGEAN AGROFOOD is more than a quality producer. We are a reliable partner providing quality products and flawless order fulfillment, taking advantage of our deep market understanding and our operational process. We have developed a great entrepreneurial environment and a team consisting of excellent professionals, making AEGEAN AGROFOOD fully capable of meeting modern market-needs.

Committed to perfection, our team of professionals brings all its passion, effort and devotion in every stage of production. This is, after all, evident to each final product.

ANCIENT VARIETY

MONOVARIETAL

Experience the unique taste of Lesvos Gold; the one and only Lesvos-based "Kolovi" Monovarietal Olive Oil, being produced in the ancient, Greek island of Lesvos (Mytilene) for more than 4.000 years. The climate, islands flora and landforms, producers' love and care define this superb quality olive oil.

Characterised by the European Union as a PGI (Protected Geographical indication) product, Lesvos Gold® is a monovarietal premium extra virgin olive oil which comes in limited quantity in numbered bottles and derives from "Kolovi" variety which exclusively grows on Lesvos island. It is the olive tree variety which gives this exceptional harmony of the astringent but also fruity flavor, the distinctive bitterness with notes of pepper of this premium extra virgin olive oil.

MADE WITH LOVE

Early harvest Greek extra virgin olive oil!

Cotinos

Green olive oil is an extra virgin olive oil which is produced from the first harvest of unripe olives. It comes in limited quantity, since green olives can only be collected for a specific, extremely tight period of time and only by hand. The special characteristics which add to green olive oil unique personality are its bold fruity flavor, distinctive bitterness and pungency. It has strong antioxidant properties, since it contains a higher percentage of polyphenols than other extra virgin olive oils.

WELCOME TO ASPILOS ELAIA FAMILY

aspilos elaia
since 1929

"Every fruit we collect hides a little history of the world. Olives are not just the trees and the oil they produce. They represent our place; our history. If you do not keep them unspoiled, you are not worthy of their bounty." These were our grandfather's words.
